

EDUCATION

- **University of Cambridge** Cambridge, GB
Electrical and Information Sciences, BA (Hons) and MEng *Oct 2024 – Jul 2028*
 - *Part IA and IB, Grade: Class I*
Modules: mathematical methods, electrical & information engineering, mechanical engineering, structures & material, business.
Coursework: Automated Guided Vehicle (software development), Python UK Flood Warning System, Integrated Electronics Project, Structural Design Project (aluminum bridge)
- **High School Affiliated to Renmin University of China** Beijing, CN
Cambridge International A-Level; GPA: 4.0/4.0 *Sep 2021 – Jul 2024*
 - Mathematics(A*), Further Mathematics(A*), Physics(A*), Computer Science(A)

EXPERIENCE

- **European Bioinformatics Institute** Cambridge, GB
Student Collaborator *Aug 2026 – Sep 2026*
 - Working on maximum-likelihood phylogenetic estimation from DNA sequences with rate heterogeneity.
- **Imperial College London** London, GB
UROP Researcher *Jul 2026 – Sep 2026*
 - Supervised by Dr. Roman Sokolovskii and Prof. Thomas Heinis, working on DNA error-correction coding.
 - Analyzing and modelling DNA storage channel and its capacity from experimental sequences datasets.
 - Building a spatially-coupled low-density parity-check code over GF(4) for encoding and decoding DNA nucleotides, approaching channel capacity.
- **A*STAR Institute of Infocomm Research** Singapore, SG
Research Internship *Jul 2025 – Sep 2025*
 - Supervised by Dr. Qianli Xu and Dr. Cheston Tan, working on artificial theory of mind (ToM) and embodied AI based on Constrained Human-AI Cooperation (NeurIPS 2024)
 - Building a multi-modal multi-agent ToM model by integrating the state-of-art VLM, LLM, and Bayesian inference model, outperforming the ToM ability of large multi-modal models such as GPT-4o
 - Gaining practical skills such as prompt engineering, virtual physical simulation, project development.

SKILLS

- **Programming:** Python, MATLAB, Latex, Git, TensorFlow, PyTorch, C++
- **Languages:** English, Mandarin

ACHIEVEMENTS

- **Robinson College Scholarship:** Being awarded a college prize and elected to a college scholarship in recognition of first year tripos results.
- **Machine Learning Specialization,** Deeplearning.AI

REFEREES

- **Dr Jossy Sayir,** Director of Study, Univesity of Cambridge, js851@cam.ac.uk
- **Sir Richard Heaton,** College Tutor, University of Cambridge, rnh26@robinson.cam.ac.uk
